

AICARE 2025
1st International Conference
 on
Artificial Intelligence for Computing, Astronomy, and Renewable Energy
(IEEE CONFERENCE ID: 66005)
Technical Offline Session
Venue: Board Room
Date: 21st November 2025
Time: 2:30pm - 04:30pm

Paper ID	Paper Title	Time
173	Optimal Frequency Regulation of a single area power system integrated with aggregated inverter air-conditioner systems using Coronavirus Optimization Algorithm	2:30pm-2:45pm
89	Smart Class Attendance System Leveraging Computer Vision	2:45pm-3:00pm
50	Prospects and Challenges in UAV-Based Communication for Disaster Management	3:00pm-3:15pm
63	Using Deep Learning Algorithms for Multiclass Classification of Brain Tumor	3:15pm-3:30pm
195	Study of the rotation curve of a low mass disc galaxy	3:30pm-3:45pm
93	Multivariate Biomedical Indicator Profiling for Early Detection of Chronic Health Risks Using Machine Learning Techniques	3:45pm-4:00pm
184	Real-Time Power System Monitoring, Scenario Reduction and Harmonic Mitigation Using Entropy Based Approach: Comparative Analysis with Conventional Sorting Technique	4:00pm-4:15pm
133	Android Malware Detection using Machine Learning	4:15pm-4:30pm
